- Packaging dimensions (W x H x D): 23 x 20.5 x 6 cm
- Gross weight: 0.76 kg
- Nett weight: 0.68 kg
- Number of products included: 1
- Packaging type: Carton
- Tare weight: 0.08 kg
- Type of shelf placement: Laying

Network Features
- Dialing: Pulse, Tone

Highlights

Always on
Always on - works even during power outage

Extra large keys
Extra large keys for easy dialing

Extra loud sound
With extra loud volume you will be able to hear every word of every conversation.

Hearing aid compatible
This feature enables the phone to couple with the hearing aid to amplify conversation while reducing ambient noise and the buzzing, humming, or whining noise that can otherwise occur.

Oversized LCD display
Extra large, 9.2cm (3.6") LCD display with clear graphics for easy reading.

Pure and clear sound
Parametric Equalizer delivers pure and clear sound

Silence mode and mute mode
Value your privacy and quiet at home? Easily disable the ringtones for specific "no call" times to enjoy piece and silence. Thanks to the mute mode you can have a private discussion which the caller will not be able to hear.

Speakerphone
Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

Speed dialing
Now calling the people you care about the most is easier than ever. With simple one-touch speed dialing, you will never have to search for their number again, connecting at the touch of a button.

Voice Caller ID
The caller number is not only shown on the display but also announced through the loud speaker, allowing to know the calling party even when the display is not visible from the distance.

Volume boost
Volume boost for earpiece/speakerphone/ringer volume
